The Honorable Rosa DeLauro
Ranking Member
Committee on Appropriations
1036 Longworth HOB
Washington, DC 20515

Dear Chairman Cole and Ranking Member DeLauro,

I am requesting funding for the Ohio Advanced Air Mobility (AAM) Infrastructure Planning Project. The entity to receive funding for this project is the City of Springfield, Ohio, located at 76 East High Street Springfield, Ohio 45502. The funding would be used for identification, planning, and design efforts to integrate AAM technology at the Springfield-Beckley Municipal Airport. The project is a good use of taxpayer funds because it will build on existing infrastructure initiatives by supporting a comprehensive plan addressing infrastructure, policy, technology, and workforce development needs to successfully integrate AAM into the National Airspace System, which will in turn expand air transportation capabilities and safety.

This project has a federal nexus because funding provided is for purposes described in section 272 of title 15, United States Code.

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

A handwritten signature in blue ink that reads "Michael R. Turner". The signature is written in a cursive style.
