Washington, D.C. 20515

Dear Chairman Cole and Ranking Member DeLauro,

I am requesting funding for the University of Dayton Semiconductor Lab – Controlled Environment Systems for Research & Workforce Development project in Fiscal Year 2027. The entity to receive funding for this project is the University of Dayton, located at 300 College Park Dayton, OH 45469. The funding would be used to install controlled environment systems to support a Class 100 Clean Room, lab space, and mechanical space. The project is an appropriate use for federal funds because it will enhance educational opportunities, promote advanced manufacturing, and expand research and experiential learning in a way that will accelerate the domestic development and production of microelectronics.

This project has a federal nexus because the funding is provided for purposes described in section 272 of title 15, United States Code.

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

A handwritten signature in black ink that reads "Michael R. Turner".
