Estimate No. 2
119th Congress, 2nd Session

EXECUTIVE OFFICE OF THE PRESIDENT
OFFICE OF MANAGEMENT AND BUDGET
WASHINGTON, D.C. 20503

THE DIRECTOR

June 24, 2026

The Honorable Mike Johnson
Speaker of the House of Representatives
Washington, D.C. 20515

Dear Mr. Speaker:

On behalf of the President, I am transmitting to the Congress a request for $87.6 billion in supplemental funding. Most of this request will address urgent needs related to Operation Epic Fury (OEF), in addition to other critical needs such as responding to the Ebola outbreak in Central Africa and supporting hardworking American farmers.

Under President Trump's leadership, the United States executed a successful operation to deter the threat of a nuclear armed Iranian regime and massively degrade the regime's ability to project power in the region. Accordingly, the Administration's request addresses operational costs incurred by the Department of War (DOW) during OEF, including funding for military personnel and readiness expenses, operational costs to rebuild stocks expended by DOW, classified programs, and other key expenses. The request also provides $21 billion for DOW to support critical capabilities, munitions procurement, and strengthen the U.S. industrial base.

In addition to supporting OEF costs incurred by DOW, the request provides $768 million to the Department of Energy to support nuclear and other energy security requirements, primarily for the National Nuclear Security Administration for OEF-related activities. Additional funding is also requested for the Department of State (State) to address OEF-related costs, which would address security for State personnel and facilities and embassy security, construction, and maintenance. Further, funding is requested for costs the U.S. Coast Guard incurred as it supported DOW in the Western Hemisphere while DOW was executing OEF.

Beyond the urgent needs arising from OEF, the Administration is also requesting funding to address other crucial needs. Notably, this request includes $1.4 billion in funding to respond to the Ebola virus outbreak in Central Africa. These funds would be used to limit the spread of Ebola beyond the Democratic Republic of the Congo and Uganda to other vulnerable nations and ensure the virus does not reach U.S. shores.

In addition, this supplemental request includes an additional $11.1 billion to support American farmers. This includes $10 billion in temporary economic assistance for row and specialty crops planted in crop year 2026. An additional $1.1 billion is requested to help the State of Florida's agricultural producers to rebound from devastating losses that were the result of crippling storms this past winter.

The Administration also requests $500 million to support ongoing efforts to complete restoration and construction projects in and around Washington, D.C., $1 billion to assist in the final design and construction of a modernized Penn Station in New York City, $600 million to support the General Services Administration, and $1 billion to increase the benefit levels for participants of certain pension plans that were sponsored by Delphi Corporation and terminated as a result of General Motors' bankruptcy in 2009.

Furthermore, the Administration requests additional authorities that it strongly supports. These authorities include revising the Federal regulation of hemp to ensure the fair treatment of hemp products in a manner consistent with Amendment #54 offered to H.R. 8646 in the House Rules Committee, or, at minimum, an extension of implementation of the regulatory framework put in place by Section 781 of Public Law 119-37. They also include an urgent and needed fix that codifies the permanent, year-round sale of E-15; adding flexibility to funding provided by the Working Families Tax Cuts Act for the Administration's Brand New Air Traffic Control System initiative; increasing loan limits for small manufacturers; additional flexibilities for State; and removing a statutory barrier to the Development Finance Corporation supporting investments in Venezuela.

The enclosed table enumerates the request by agency and account. I urge the Congress to take action on these important and urgent requests as soon as possible. The Administration is also open to discussing additional relief for other urgent matters. I stand ready to work with you for the benefit of the American people.

Sincerely,

Russell T. Vought
Director

Enclosure

Urgent Supplemental Funding Needs

Appropriations Bill/Agency/Bureau/Account	Budget Authority (whole dollars)	Description
Agriculture, Rural Development, Food and Drug Administration, and Related Agencies		
Department of Agriculture		
Office of the Secretary		
Processing, Research, and Marketing--Office of the Secretary	1,100,000,000	This request would provide $1.1 billion to the Processing, Research, and Marketing account within the U.S. Department of Agriculture (USDA) for agricultural producers who faced damages from winter storms that occurred in late 2025 and early 2026.
	10,000,000,000	This request would provide $10 billion in temporary economic assistance for row and specialty crops planted in crop year 2026.
Commerce, Justice, Science, and Related Agencies		
Department of Justice		
Federal Bureau of Investigation		
Salaries and Expenses	40,258,000	$40 million is requested for the Federal Bureau of Investigation to carry out activities related to Operation Epic Fury and other classified needs. Additional details on these activities are classified and can be provided in a separate setting.
Defense		
Department of War--Military Programs		
	67,146,000,000	This request would provide $67.1 billion for the Department of War including: $1.7 billion for Readiness; $17.3 billion for Operational Costs; $0.8 billion for National Guard Support; $1.5 billion for fuel costs; $1.2 billion for Administration priorities; $21 billion for Munitions; $5.1 billion for Cybersecurity and Autonomy; $2.4 billion for Drones; $4 billion for Airborne Moving Target Indication and Space Data Network Backbone; and $12.1 billion for other classified programs.
Energy and Water Development and Related Agencies		
Department of Energy		
Environmental and Other Defense Activities		
Other Defense Activities	95,500,000	This classified request supports Department of Energy activities funded out of the Other Defense Activities appropriation in support of Operation Epic Fury and other classified purposes.
National Nuclear Security Administration		
Defense Nuclear Nonproliferation	672,000,000	This funding is for activities for complete and verifiable termination of Iran's ability to develop or acquire a nuclear weapon, including the disposition of proliferation sensitive material, technology, equipment, and infrastructure.
Financial Services and General Government		
Department of the Treasury		
Departmental Offices		
Office of Terrorism and Financial Intelligence	36,180,000	This request would provide $36 million for the Department of the Treasury as part of a classified request.

Appropriations Bill/Agency/Bureau/Account	Budget Authority (whole dollars)	Description
General Services Administration		
Real Property Activities		
Federal Buildings Fund	600,000,000	This request would provide $300 million for urgent elevator-related capital projects across over 45 buildings nationwide with the scope limited to repair and replacement of elevator and other conveyance systems, with potential tie-ins to fire alarm systems, emergency generators, historical preservation compliance, and Architectural Barriers Act Accessibility Standards compliance; and, $300 million for the Washington, D.C., Heating Operation and Transmission District (HOTD) Decoupling Program to allow the General Services Administration (GSA) to continue work necessary for buildings to operate independently of HOTD including installing Heating, Ventilation, and Air Conditioning systems, buyouts of Energy Savings Performance Contracts, divestments, decoupling of non-GSA buildings (20 of 62 buildings) and other uses.
Homeland Security		
Department of Homeland Security		
United States Coast Guard		
Operations and Support	2,031,500,000	This funding would be used for the U.S. Coast Guard to support Department of War (DOW) / Operation Epic Fury efforts and fill in the gaps where DOW assets are not available to support Western Hemisphere operations. This includes funding for operations at the Southern Border, replacing legacy communications equipment, and securing strategic military outload ports and other key maritime nodes.
Analysis and Operations		
Operations and Support	13,100,000	This request would provide $13 million for the Department of Homeland Security as part of a classified request.
Interior, Environment, and Related Agencies		
Department of the Interior		
National Park Service		
Construction	500,000,000	This request would provide $500 million to the Construction account within the National Park Service of the Department of the Interior to be used to coordinate, plan, and execute targeted restoration and construction for the Seawall and the World War II Memorial.
Labor, Health and Human Services, Education, and Related Agencies		
Department of Labor		
Pension Benefit Guaranty Corporation		
Pension Benefit Guaranty Corporation Fund	1,000,000,000	This authorization and funding would be used to increase the benefit levels for participants of certain pension plans that were sponsored by Delphi Corporation and terminated as a result of General Motors' bankruptcy in 2009. Language is needed to establish and fund a new trust fund at the Department of the Treasury for the payment of these benefits to supplement the guaranteed benefit level the Pension Benefit Guaranty Corporation is currently paying. The cost of this new fund could be fully offset, or a revenue generator, by accelerating pension insurance premiums.

Appropriations Bill/Agency/Bureau/Account	Budget Authority (whole dollars)	Description
National Security, Department of State, and Related Programs		
Department of State		
Administration of Foreign Affairs		
Diplomatic Programs	1,521,700,000	This request includes $1.5 billion to the Diplomatic Programs account, which includes $1.4 billion for the Worldwide Security Protection programs and $120 million for operations in U.S. missions throughout the region. The request prioritizes $850 million for the Department of State's Counter-Unmanned Aircraft Systems program at high-risk posts, and security upgrades and equipment replacement. The request includes $21 million for the Department as part of a classified request.
Embassy Security, Construction, and Maintenance	300,000,000	This request includes $300 million to the Embassy Security, Construction, and Maintenance (ESCM) account. Funding would be used to address needs following Operation Epic Fury, including in Bahrain, Dubai, Karachi, Lahore, Riyadh, and others. These amounts are in addition to the up to $1 billion currently allocated in the ESCM fiscal year 2026 Operating Plan to address Operation Epic Fury.
Emergencies in the Diplomatic and Consular Service	90,000,000	This request includes $90 million to the Emergencies in the Diplomatic and Consular Service account for unanticipated needs related to the Ebola situation including for the medical evacuation of U.S. citizens.
	100,000,000	This request includes $100 million to the Emergencies in the Diplomatic and Consular Service account for unanticipated needs related to the situation in the Middle East including for departure assistance to U.S. citizens seeking to leave the region with their families. Transfer authority and an increase in repatriation loan level is requested to meet the needs of destitute U.S. citizens.
Other		
Global Health Programs	550,000,000	This request includes $550 million for Global Health Security, to prevent, detect, and respond to the Ebola Bundibugyo Virus outbreak in the Democratic Republic of the Congo, Uganda, and other vulnerable nations. This funding is critical to protect Americans, and stop the spread to the United States. These funds would support contact tracing, personal protective equipment and commodity procurement, disease surveillance, laboratory capacity, and cross-border coordination.
International Humanitarian Assistance	800,000,000	This request includes $800 million for the International Humanitarian Assistance account to support the humanitarian crisis response related to the Ebola virus outbreak in Central Africa, including for the Kenya facility.
Transportation, Housing and Urban Development, and Related Agencies		
Department of Transportation		
Federal Railroad Administration		
Federal-State Partnership for Intercity Passenger Rail	1,000,000,000	This funding would be used to assist in the final design and construction of a modernized Penn Station in New York City. These supplemental funds, along with base resources, will ensure the project can proceed on an expedited schedule. The Administration also requests that 49 U.S.C. 24911(d)(3) not apply to these funds.
TOTAL	**87,596,238,000**	

Urgent Supplemental Authorities

Appropriations Bill/Agency/Bureau/Account	Description
Agriculture, Rural Development, Food and Drug Administration, and Related Agencies	
Department of Agriculture	
Agricultural Marketing Service	
Marketing Services	This request would update the statutory definition of final hemp-derived cannabinoid products to allow Americans to benefit from access to appropriate full-spectrum CBD products while preserving the Congress's intent to restrict the sale of products that pose serious health risks.
Defense	
Department of War--Military Programs	
	Authorization is necessary to provide funding for intelligence related activities.
Financial Services and General Government	
Small Business Administration	
Business Loans Program Account	This request would authorize the Small Business Administration to increase the maximum loan amounts available to small manufacturers under the 7(a) and 504 loan programs, like in the Made in America Manufacturing Finance Act.
Interior, Environment, and Related Agencies	
Environmental Protection Agency	
Administrative Provisions--Environmental Protection Agency	The Administration requests a fix that codifies the permanent, year-round sale of E-15, an urgent and needed policy change that would expand consumer choice, support domestic fuel production, and provide additional flexibility in fuel markets.
National Security, Department of State, and Related Programs	
Department of State	
General Provisions	The Administration requests that the Congress provide authority for funds made available under the headings "Economic Support Fund," "Assistance for Europe, Eurasia and Central Asia," and "National Security Investment Programs" in the fiscal year 2026 and prior year appropriations acts to be used, notwithstanding any other provision of law, to establish and operate enterprise funds in foreign countries in line with, but not geographically restricted to, the relevant provisions of section 201 of the Support for East European Democracy (SEED) Act of 1989. This authority would provide the legal framework for these funds to be used to establish and operate enterprise funds, proven, agile tools which would support private sector development, promote economic stabilization, and facilitate job creation in eligible foreign countries undergoing political or economic transition. Granting this authority would allow the Department to respond rapidly to emerging opportunities or crises where traditional assistance mechanisms may be less effective or too slow.

Appropriations Bill/Agency/Bureau/Account	Description
International Assistance Programs	
United States International Development Finance Corporation	
United States International Development Finance Corporation	This request would remove a statutory barrier to the Development Finance Corporation (DFC) supporting investments in Venezuela to reflect the changes in Venezuela since DFC's reauthorization in 2025 and empower the Secretary of State to certify to the Congress that DFC support would further the national economic or foreign policy interests of the United States in enumerated DFC Countries of Concern to rapidly respond to changes.
Transportation, Housing and Urban Development, and Related Agencies	
Department of Transportation	
Federal Aviation Administration	
Facilities and Equipment	This request would provide the Administrator of the Federal Aviation Administration with discretion to reallocate any remaining amounts of the $12.52 billion provided by the Working Families Tax Cuts Act for air traffic control modernization to any element of the Administration's Brand New Air Traffic Control System initiative.
